**URBAN  
JUNGLE**

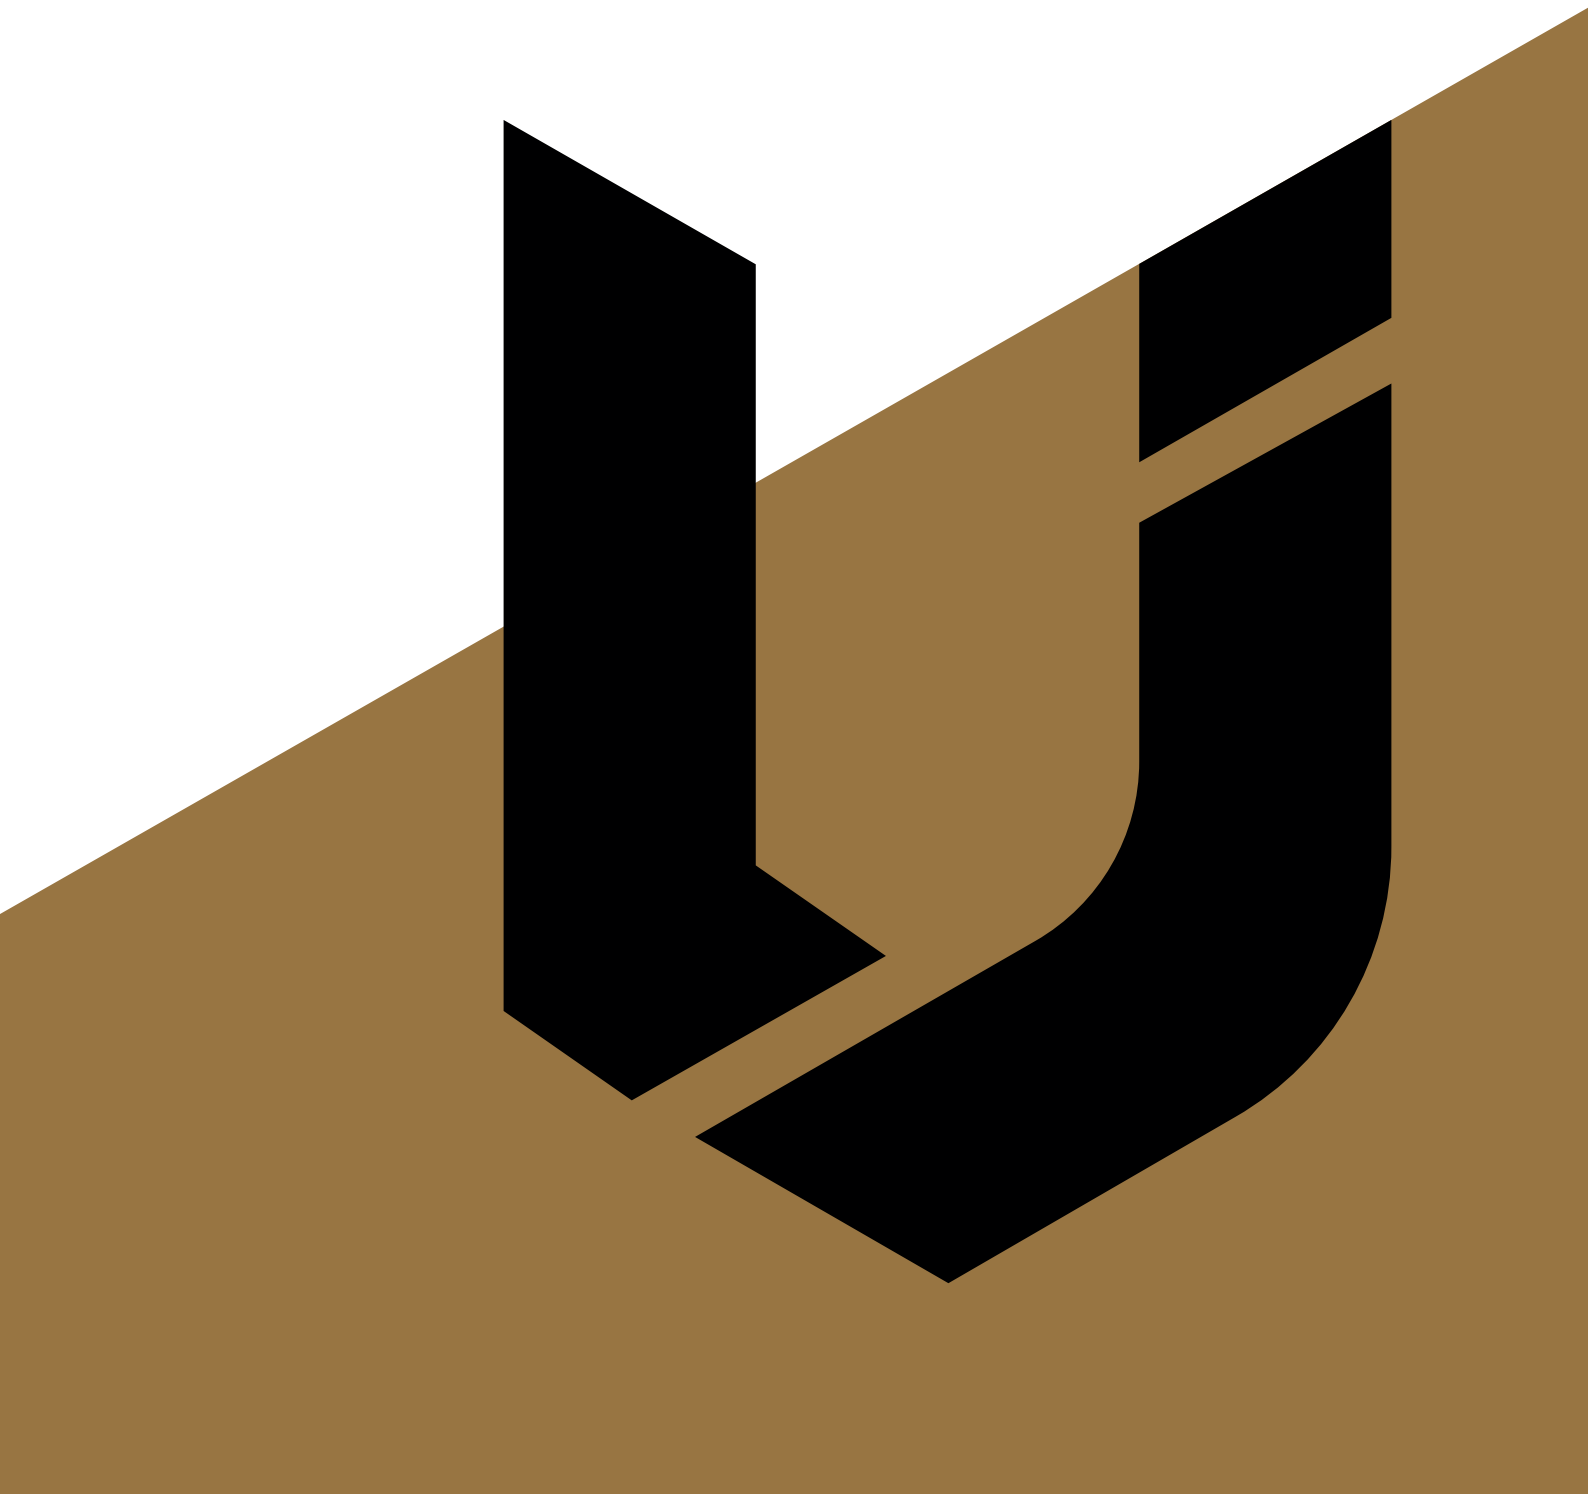

# LET'S GET LOST IN URBAN JUNGLE.

Today's traffic situations force cyclists to trade paved roads for alternative routes such as unpaved, slower roads. The modern cyclist of today is an all-rounder. He finds himself on different surfaces, from field tracks and forest trails to cobbled lanes and busy highways.

Meet Urban Jungle. Urban Jungle is the answer to the needs and wishes of the modern cyclist and the ideal partner for all of your on-road and off-road adventures.

It is also the result of more than 90 years of experience in building bikes. A new, progressive concept that can please both the modern work commuter and the cycling tourist.
